Cold Spring Harbor Asia (CSHA) is the Asia-Pacific subsidiary of New York based Cold Spring Harbor Laboratory (CSHL). Inaugurated in 2010, CSHA is dedicated to promotion international scientific exchange in the Asia-Pacific Rim by offering scientific conferences and advanced training courses with highest quality.

## Major Topics

1. Biomolecular simulations and model systems for GTP hydrolysis
2. Molecular mechanism of GTP hydrolysis by GTPases and their associated GAPs
3. Posttranslational modifications of GTPases
4. Interactions of GTPases with membranes
5. Interactions with effector proteins
6. Protein-Protein interactions of GTPases in vitro
7. Dynamics and Trafficking of GTPases in vivo
8. GTPases in disease and drugs for GTPases

## Abstract Deadline Extended to August 3, 2014

Abstracts with new and unpublished data are encouraged. Selection for short talks (10-20) and poster presentations will be made by the organizing committee on the basis of scientific merit and relevance.

## Fellowships

Again as a tradition of CSHL, we are eager to support as many junior scientists as possible. Certain number of presentations by graduate students or postdocs in this conference will be evaluated for fellowship awards (\$100-\$500).
